INDEPENDENT AUDITORS' REPORT

To the Board of Directors of

Concord Academy-Boyne:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Concord Academy-Boyne (the Academy), as of and for the year ended June 30, 2008, which collectively comprise the Academy's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Concord Academy-Boyne's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Concord Academy-Boyne, as of June 30, 2008, and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Board of Directors Concord Academy-Boyne

In accordance with Government Auditing Standards, we have also issued our report dated September 10, 2008, on our consideration of Concord Academy-Boyne's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and important for assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 7 and 25, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Smolinski & Christman, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Concord Academy-Boyne's (the Academy) annual financial report presents our discussion and analysis of the public school Academy's financial performance during the fiscal year that ended on June 30, 2008. Please read it in conjunction with the Academy's financial statements, which immediately follow this section.

Financial Highlights

- The Academy experienced a decrease in net assets of \$84,480, from \$967,831 to \$883,351.
- Revenues decreased by 2.6 percent, from \$1,557,651 to \$1,517,610, while expenses increased by 9.5 percent, from \$1,450,669 to \$1,602,090.
- Blended enrollment used for state aid purposes was 194.64 in June, 2008 compared to 197.56 in June, 2007.

Overview of the Financial Statements

This annual report consists of three parts:

- 1. Management's discussion and analysis (this section).
- 2. Basic financial statements.
 - a. Academy-wide financial statements.
 - i. Statement of Net Assets.
 - ii. Statement of Activities.
 - b. Fund financial statements.
 - i. Governmental funds statements.
 - ii. Fiduciary funds statements.
- 3. Required supplementary information.

The two Academy-wide financial statements provide short-term and long-term information about the Academy's overall financial status.

The fund financial statements focus on individual parts of the Academy, reporting the Academy's operations in more detail than the Academy-wide statements.

The governmental funds statements tell how basic services like regular education were financed in the short-term as well as what remains for future spending.

Fiduciary funds statements provide information about the financial relationships in which the Academy acts solely as an agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the Academy's budget for the year.

Major Features of the Academy-Wide and Fund Financial Statements

The table below summarizes the major features of the Academy's financial statements, including the portion of the Academy's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

	Academy-wide statements	Fund Financial	Statements

		services have been received and	
		the related liability is due and	
		payable	

Academy-wide statements

The Academy-wide statements report information about the Academy as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the Academy's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two Academy-wide statements report the Academy's net assets and how they have changed. Net assets - the difference between the Academy's assets and liabilities, are one way to measure the Academy's financial health or position.

- Over time, increases or decreases in the Academy's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the Academy, you need to consider additional non-financial factors such as changes in the Academy's enrollment, the condition of school buildings and other facilities, and the Academy's ability to be competitive with other public school academies and area school districts.

Fund financial statements

The fund financial statements provide more detailed information about the Academy's funds, focusing on its more significant or "major" funds - not the Academy as a whole. Funds are accounting devices the Academy uses to keep track of specific sources of funding and spending on particular programs:

Governmental activities - The Academy's basic services are included in the general fund, such as regular and special education and administration. State foundation aid finances most of these activities.

The Academy has two kinds of funds:

Governmental fund - Most of the Academy's basic services are included in governmental funds which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in

and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Academy's programs. Because this information does not encompass the additional long-term focus of the Academy-wide statements, we provide additional information with the governmental funds statement that explains the relationship (or differences) between them.

<u>Fiduciary funds</u> - The Academy is the fiduciary for assets that belong to others, such as the student activities funds. The Academy is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and used by those to whom the assets belong. We exclude these activities from the Academy-wide financial statements because the Academy cannot use these assets to finance its operations.

Financial analysis of the Academy as a whole

The Academy's combined net assets were less on June 30, 2008 than they were the year before, decreasing by \$84,480 to \$883,351. Unrestricted State aid revenue increased by less than 1 percent to \$1,452,326. This is due to enrollment and per pupil State Aid both remaining essentially flat. The total cost of instruction increased by 9.9 percent to \$907,395. This is due in part, to an increase in contracted teaching and administrative services (additions to staff, year-end bonuses, and retirement plan contributions) as well as the purchase of several laptop computers for staff and classroom use.

A summary of the Academy's net assets as of June 30 is as follows:

	2008	2007
Current assets Capital assets, net Other noncurrent assets	\$ 847,827 2,316,884 <u>484,320</u>	\$ 746,985 2,360,737 606,349

Total expenses	1,602,090	1,450,669
Change in net assets	<u>\$ (84,480)</u>	\$ 106,982

2007

Financial analysis of the Academy's funds

The Academy's stable financial position is the result of cost reduction measures and a significant debt restructuring accomplished in June, 2007. Because enrollment remained virtually unchanged from the prior year and the State had only a minimal increase in per pupil funding, unrestricted State aid revenue was also virtually unchanged from the prior year. This is also true of General Fund balance, which means that expenditures generally matched revenues. In fact, it was a conscious decision of management to deploy, to the extent of available resources, the savings from debt restructuring to reward employees for admirable service during prior lean years. State aid foundation allowance included in revenue from state sources accounts for most of the Academy's general fund revenue (96 percent). A current vs. prior year comparison of the Academy's funds will demonstrate management's continued diligence in controlling costs to match revenues.

	06/30/2007	06/30/2008	% increase (<u>Decrease)</u>
General Fund Balance	\$ 997,520	\$ 998,741	<1%
General Fund Revenues	\$1,557,651	\$1,517,608	(2.6%)
General Fund Expenditures	\$1,731,229	\$1,516,387	(12.4%)
Cost of Instruction	\$ 817,251	\$ 940,082	13.1%
Support Services Expenses	\$ 421,267	\$ 435,973	3.4%

General fund budgetary highlights

Over the course of the year, the Academy revised the annual operating budget. These budget amendments fall into several categories:

- A revenue decrease from local sources because rental of school property did not occur.
- A modest revenue decrease from state sources because State Aid was less than originally anticipated due to a modest reduction in enrollment compared to the prior year.
- Computers and supplies were more than originally anticipated as a result of funds being available to purchase these items.
- Tuition at other schools was more than anticipated due to overwhelmingly positive response to dual enrollment classes offered on our campus through Lake Superior State University.
- Revising for debt service and transfers between funds.

While the Academy's final budget for the General Fund anticipated revenues would exceed expenditures by \$30,611, the actual results for the year showed revenues over expenditures of \$1,221. Actual revenues were \$12,618 higher than budgeted. This is mainly due to the fact that interest income was not budgeted.

Amounts were budgeted for transfers among funds, however no such transfers were necessary during the year ended June 30, 2008. This resulted in an unfavorable budget variance of \$82,411.

Capital asset and debt administration

By June 30, 2008, the Academy had invested \$2,316,884 in capital assets net of accumulated depreciation. These assets are land, software development in progress, construction in progress, land improvements, buildings and improvements, outdoor equipment, computers and other equipment, and library materials. Accumulated depreciation on these assets was \$683,065 as of June 30, 2008. Outstanding long-term debt incurred to invest in these assets was \$2,567,582 as of June 30, 2008. No principal was due on the series 2007 bonds during the year ended June 30, 2008. Amortization of \$10,117 reduced the balance of the deferred amount on refunding liability. The Academy's fiscal year 2009 initial budget anticipates no spending for capital projects.

The Academy's capital assets at June 30 are as follows:

	2008	2007	
Land	\$ 32,000	\$ 32,000	
Software development in progress	2,500	-	
Construction in progress	6,000	6,000	
Land improvements	20,000	20,000	
Buildings and improvements	2,806,456	2,802,210	
Outdoor equipment	20,418	20,418	
Computers and other equipment	96,820	64,113	
Library materials	<u> 15,755</u>	<u>15,755</u>	
Total capital assets	2,999,949	2,960,496	
Less accumulated depreciation	(683,065)	(599,759)	
Total capital assets, net	<u>\$2,316,884</u>	<u>\$2,360,737</u>	

Factors bearing on the Academy's future

At the time these financial statements were prepared and audited, the Academy was aware of existing circumstances that could significantly affect its financial health in the future.

- State aid funding from the State of Michigan represents 96 percent of the total Academy general fund revenue. Due to the economic climate in the State of Michigan, fluctuations in the foundation allowance are possible.
- Requirements of the No Child Left Behind Act could make it difficult for a small school such as ours to employ highly-qualified teachers for every subject.
- Student enrollment, because of per pupil state aid, is the driving force for the majority of our revenue. The Academy has taken measures to retain and increase enrollment. Meanwhile, our local competitors have all constructed new facilities to attract students, and the rising price of gasoline has made it more costly, and in some cases unaffordable, for some families to attend the Academy. Therefore, the Academy is planning a mileage assistance program for the 2008/09 school year. The Academy's goal is to increase enrollment until it reaches capacity (260 students).

Contacting the Academy's financial management

This financial report is designed to provide our students, parents and creditors with a general overview of the Academy's finances and to demonstrate the Academy's accountability for the money it receives. If you have questions about this report or need additional information, contact the Academy's office at 00401 E. Dietz Road, Boyne City, Michigan 49712.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The basic financial statements of Concord Academy-Boyne, (the Academy) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Academy's accounting policies are described below.

Reporting Entity

Public School Academies were formed pursuant to the Michigan School Code of 1976 as amended by Act Number 416 of the Public Acts of 1994; Act Number 416 became effective March 30, 1995. The Academy filed Articles of Incorporation as a non-profit corporation September 1, 1995.

The Academy has a five year agreement with Lake Superior State University (LSSU) to organize and administer the Academy (expires June 30, 2010). LSSU is paid 3 percent of state aid payments for oversight services. The Academy's board of directors is approved by the authorizing body and is authorized to manage the Academy and the property and affairs of the Academy.

In evaluating how to define the Academy, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP, currently GASB Statements No. 14 and No. 39.

Based upon the application of these criteria, the basic financial statements of the Academy contain all the funds controlled by the Academy's Board of Directors as no other entity meets the criteria to be considered a blended component unit or a discretely presented component unit of the Academy nor is the Academy a component unit of another entity.

Academy-Wide And Fund Financial Statements

The Academy-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the Academy. The Academy-wide financial statements categorize primary activities as either governmental or business type. All of the Academy's activities are classified as governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges paid by recipients who purchase, use or directly benefit from goods or services by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State Foundation Aid and other unrestricted items are not included as program revenues but instead as *general revenues*.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Academy-Wide And Fund Financial Statements (Continued)

In the Academy-wide statement of net assets, the governmental activities column (a) is presented on a consolidated basis, and (b) is reported on a full accrual, economic resource basis which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Academy's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The Academy first utilizes restricted resources to finance qualifying activities.

The Academy-wide statement of activities reports both the gross and net cost of each of the Academy's functions. The functions are also supported by general government revenues (certain intergovernmental revenues and other revenue.) The statement of activities reduces gross expenses by related program revenues and operating grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (state sources, interest income and other revenues.)

The Academy does not allocate indirect costs.

This Academy-wide focus is more on the sustainability of the Academy as an entity and the change in the Academy's net assets resulting from the current year's activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from Academy-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Funds - Governmental funds are those funds through which most school functions typically are financed. The acquisition, use and balances of the Academy's expendable financial resources and the related current liabilities are accounted for through governmental funds.

The Academy reports the following <u>major</u> governmental fund:

The general fund is the Academy's primary operating fund. It accounts for all financial resources of the Academy, except those required to be accounted for in another fund.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Academy-Wide And Fund Financial Statements (Continued)

Fiduciary funds account for assets held by the Academy as an agent on behalf of others. Fiduciary funds are not included in the government-wide statements.

The agency fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. This fund is used to account for assets that the Academy holds for student and parent activity groups in an agency capacity.

Measurement Focus, Basis of Accounting and Basis of Presentation

Accrual Method

The Academy-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Modified Accrual Method

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Academy considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judaments, are recorded only when payment is due.

State and federal aid and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Academy.

State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to the Academy based on information supplied by the Academy. For the year ended June 30, 2008, the foundation allowance was based on pupil membership counts taken in February and September of 2007.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Measurement Focus, Basis of Accounting and Basis of Presentation (Continued):

State Revenue (Continued)

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The state revenue is recognized during the foundation period and is funded through payments from October, 2007 to August, 2008. Thus, the unpaid portion at June 30th is reported as due from State of Michigan.

The Academy also receives revenue from the State to administer certain categorical education programs. State rules require that revenue earmarked for those programs be used for its specific purpose.

Other Accounting Policies

Cash and Cash Equivalents and Investments

The Academy reports its investments in accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools and No. 40 Deposits and Investment Risk Disclosures. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the Academy intend to hold the investment until maturity.

State statutes authorize the Academy to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The Academy is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

Receivables

An allowance for uncollectible amounts was not considered necessary at June 30, 2008 because all receivables are considered collectible.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Capital Assets

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Buildings and additions 40 years
Furniture and other equipment 5 - 20 years

The Academy's capitalization policy is to capitalize individual amounts exceeding \$1,000.

Long-term Obligations

In the Academy-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net assets. Certificates of participation and bond premiums and discounts, as well as issuance costs are deferred and amortized over the life of the certificates of participation and bonds using the straight line method over the term of the related debt. Amortization of debt issuance costs for the year ended June 30, 2008 amounted to \$9,141.

The deferred amount on refunding (\$192,418) was incurred during the year ended June 30, 2007 and is the difference between the reacquisition price of the new debt (the amount placed in escrow) and the carrying amount of the old debt. This amount is being amortized as an element of interest expense over the life of the refunded debt based on the original principal maturities of the old debt. Amortization of the deferred amount on refunding for the year ended June 30, 2008 amounted to \$11,117.

Fund Balance

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE B - BUDGETING:

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. An annual appropriated budget is adopted for the general fund. All annual appropriations lapse at fiscal year end.

The Academy follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Chief Administrative Officer submits to the Board of Directors a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.
- 2. Public hearings are conducted to obtain comments from the public.
- 3. Prior to July 1, the budget is legally adopted by enactment of a General Appropriations Act pursuant to the Uniform Budgeting and Accounting Act (P.A. 621 of 1978). The act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, for the general fund are noted in the required supplementary information section.
- 4. The Chief Administrative Officer is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the Board of Directors.
- 5. Formal budgetary integration is employed as a management control device during the year for the general fund.
- 6. The budget as presented, has been amended. Supplemental appropriations were made during the year with the last one approved prior to June 30, 2008. The Academy does not consider these amendments to be significant.

NOTE C - DEPOSITS AND RESTRICTED INVESTMENTS:

As of June 30, 2008, the Academy had the following investments:

Investment Type	Fair Value	Weighted average maturity (years)	Standard & Poor's Rating	_ %
First American Treasury Obligations Fund - class D	<u>\$451,852</u>	0.13	AAAm	<u>100%</u>
Portfolio weighted average maturity		<u>0.13</u>		
l day maturity equals 0.13, one year	equals 1.00			

NOTE C - DEPOSITS AND RESTRICTED INVESTMENTS (Continued):

The Academy invests certain funds in external pooled investment funds which consist of treasury obligations held by trustee. Per the treasury obligation reports as of June 30, 2008, the fair value of the Academy's investments is the same as the value of the pool shares. The above investments are restricted as follows:

Debt Service Reserve Accounts - The balance in these accounts will be used to make principal and interest payments on the bonds if monies in the Bond Principal Fund or Bond Interest Fund are insufficient to make such payments when due. All monies remaining at maturity may be used to pay the principal and interest due on the bonds. The earnings on these accounts will be used to reduce the annual debt service payments.	\$197,996
Principal/Interest/Miscellaneous Accounts - Include amounts withheld from the Academy's monthly foundation grant and reserved for debt service.	85,235
Project Fund Account - The balance in this account is to be used for capital improvements to the Academy's facilities.	167,321
Repair and Replacement Fund Account - The balance in this account is to be used to pay the cost of extraordinary maintenance and replacements which may be required to keep the facility in sound condition.	1,300

Interest Rate Risk

Total held by trustee

The Academy does not have specific investment policies that limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2008, the Academy had \$451,852 at fair market value invested in a money market fund. The average maturity of this fund is less than one year.

\$451,852

Credit Risk

State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Academy's deposits may not be returned to it. The Academy does not have a formal deposit policy for custodial credit risk. At June 30, 2008, the bank balance was \$447,904 of which \$336,315 was uninsured and uncollateralized.

NOTE C - DEPOSITS AND RESTRICTED INVESTMENTS (Continued):

<u>Custodial Credit Risk - Investments</u>

For an investment, this is the risk that, in the event of the failure of the counterparty, the Academy will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Academy does not have a formal investment policy for custodial credit risk. However, all of the investments are in the name of the Academy and are held in trust accounts with the financial institution from which they were purchased.

NOTE D - CAPITAL ASSETS:

The following is a summary of the changes in the various fixed asset class categories for the year ended June 30, 2008:

, ,	Beginning Balance	Additions	Transfers/ Deletions	Ending Balance
Capital assets not being depreciated: Land Software development in progress Construction in progress	\$ 32,000 - 6,000	\$ - 2,500 	\$ - - -	\$ 32,000 2,500 6,000
Total capital assets not being depreciated	38,000	2,500	-	40,500
Capital assets being depreciated: Land improvements Buildings and improvements Outdoor equipment Computers and other equipment Library materials	20,000 2,802,210 20,418 64,113 15,755	4,246 - 32,707 	- - - - -	20,000 2,806,456 20,418 96,820 15,755
Total capital assets being depreciated	2,922,496	36,953	=	2,959,449
Less accumulated depreciation	599,759	83,306		683,065
Total capital assets being depreciated, net	2,322,737	(46,353)		2,276,384
Total capital assets, net	\$2,360,737	\$ (43,853)	\$ -	\$2,316,884

Depreciation for the fiscal year ended June 30, 2008 totaled \$83,306. The Academy determined that it was impractical to allocate depreciation to the various governmental activities as the assets serve multiple functions.

NOTE E - PAYABLES:

The accounts payable balance at June 30, 2008 is composed of amounts due to the following types of entities:

Vendors	\$ 5,143
Contracted personnel expenses	65
Local public school	 1,744
	\$ 6,952

NOTE F - LONG-TERM DEBT:

The following is a summary of long-term debt activity for the year ended June 30, 2008:

	Series 2007 Bonds Payable (<u>Due 11/1/2022)</u>	Series 2007 Bonds Payable (Due 11/1/2036)	_ Total
Long-term debt, July 1, 2007	\$ 845,000	\$1,955,000	\$2,800,000
Additions	-	-	-
Retirements	-	-	-
Balance, June 30, 2008	845,000	1,955,000	2,800,000
Less current portion	(40,000)		(40,000)
Total due after one year	\$ 805,000	\$1,955,000	\$2,760,000

Long-term debt at June 30, 2008, consists of the following:

Bonds payable (series 2007), payable in annual installments ranging from \$40,000 to \$80,000 through November, 2022, with semi-annual interest payments at 5.45 percent. Secured by the full faith and credit obligation pledge of the Academy, all monies in specified funds of the Trustee, all proceeds of those funds, and all real and personal property of the Academy.

\$ 845,000

Bonds payable (series 2007), payable in annual installments beginning November, 2023, ranging from \$85,000 to \$375,000 through November, 2036, with semi-annual interest payments at 5.60 percent. Secured by the full faith and credit obligation pledge of the Academy, all monies in specified funds of the Trustee, all proceeds of those funds, and all real and personal property of the Academy.

1,955,000

Total \$2,800,000

Total principal and interest maturities on the long-term debt outstanding as of June 30, 2008, are as follows:

Year Ending June 30	Principal	Interest	Total
2009 2010 2011 2012 2013 2014 through 2018 2019 through 2023 2024 through 2028 2029 through 2033	\$ 40,000 40,000 45,000 45,000 275,000 360,000 475,000 635,000	\$ 154,443 152,263 150,083 147,766 145,314 684,604 598,358 483,700 329,140	\$ 194,443 192,263 190,083 192,766 190,314 959,604 958,358 958,700 964,140
2034 through 2039 Total	<u>845,000</u> \$2,800,000	<u>113,820</u> \$2,959,491	958,820 \$5,759,491

NOTE F - LONG-TERM DEBT (Continued):

Total interest expense related to the bonds payable for the year ended June 30, 2008 was \$155,521.

Bonds maturing in the year 2018 and thereafter may be redeemed early beginning November 1, 2017 at par plus accrued interest.

NOTE G - CONTRACTED SERVICES:

The Academy contracted with Lakeshore Educational Management, Inc. (Lakeshore) to provide teaching, administrative and custodial services for the Academy. The payments to Lakeshore cover expenses associated with the teachers, administrative and custodial personnel, including wages, payroll taxes, and benefits. Lakeshore charged a \$750 semi-monthly administration fee. Total expense for the year ended June 30, 2008 under the contracts was \$1,053,826, including \$18,000 in administrative fees.

NOTE H - RISK MANAGEMENT:

The Academy is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees' and natural disasters.

The Academy carries commercial insurance for the various risks of loss.

NOTE I - DEFEASED DEBT:

On June 21, 2007, the Academy issued \$2,595,000 refunding bonds with interest rates ranging between 5.45 percent and 5.60 percent. The bonds were issued to advance refund series 1998 and series 2003 certificates of participation totaling \$2,380,000 with interest rates ranging from 7.0 percent to 8.125 percent. The Academy also issued \$205,000 of new debt as part of this transaction. The bonds were issued at par value. The net proceeds from the issuance of the refunding bonds, along with other resources, were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for debt service on the refunded certificates of participation and redemption of the certificates in October, 2008. As a result, the series 1998 and series 2003 certificates are considered defeased, and the Academy has removed the liability from its accounts. The outstanding principal of the defeased certificates of participation is \$2,270,000 at June 30, 2008.

As a result of the advanced refunding, the Academy increased its total debt service requirements by approximately \$1,747,000. This resulted in an economic loss (difference between the present values of the debt service payments on the old and new debt) of approximately \$40,000. The Academy pursued the refunding to address current cash flow needs and received permission from the Michigan Department of Treasury to allow the refunding despite the net economic loss.

CONCORD ACADEMY - BOYNE REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE - GENERAL FUND for the year ended June 30, 2008

September 10, 2008

Troy A. Stater, C. REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of Concord Academy-Boyne:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Concord Academy-Boyne (the Academy) as of and for the year ended June 30, 2008, which collectively comprise the basic financial statements of the Academy and have issued our report thereon dated September 10, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Academy's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Academy's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Academy's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Academy's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Academy's financial statements that is more than inconsequential will not be prevented or detected by the Academy's internal control. We consider the deficiencies described below to be significant deficiencies in internal control over financial reporting. These deficiencies are referenced as 2008-1 and 2008-2.

Board of Directors Concord Academy-Boyne

Finding 2008-1: Management does not have the internal expertise to prepare financial

statements in accordance with accounting principles generally accepted in

the United States of America.

Response: Due principally to the negative impact on cash funds available to the

Academy, the hiring of accounting personnel capable of preparing the Academy's financial statements and footnotes in accordance with accounting principles generally accepted in the United States of America is

cost prohibitive.

The Academy's response to the findings identified in our audit is described above. We did not audit the Academy's response and, accordingly, we

express no opinion on it.

Finding 2008-2: Lack of segregation of duties exists in the accounting function due to the

limited number of accounting personnel.

Response: This condition is generally inherent in organizations the size of the Academy.

Management is unable to employ the number of accounting personnel to attain an adequate separation of duties between management functions, accounting functions and custody of the Academy's assets. To the extent possible, duties are allocated between accounting personnel to mitigate risk of material misappropriation of assets. In addition, the Board of Directors assumes a higher level of oversight responsibilities to mitigate risks related

to this lack of segregation of duties.

The Academy's response to the findings identified in our audit is described above. We did not audit the Academy's response and, accordingly, we

express no opinion on it.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Academy's internal control. Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we consider Finding 2008-1 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Academy's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain other matters that we reported to the management of the Academy in a separate letter dated September 10, 2008.

Board of Directors Concord Academy-Boyne

This report is intended solely for the information and use of the Board of Directors, management, others within the organization, and the State of Michigan and is not intended to be and should not be used by anyone other than these specified parties.

Adam B. Caron, C.P.A. Troy A. Slater, C.P.A.

> Board of Directors Concord Academy - Boyne Boyne City, Michigan

We have audited the financial statements of Concord Academy-Boyne (the Academy) for the year ended June 30, 2008, and have issued our report thereon dated September 10, 2008. In planning and performing our audit of the financial statements, we considered the Academy's internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

During our audit, we became aware of the following matters that represent an opportunity for strengthening operating controls and efficiencies. This letter does not affect our report dated September 10, 2008, on the financial statements of Concord Academy-Boyne. Our comments are summarized below.

The following comment was reported last year and is being repeated this year:

U.S. Bank Account Activity

The Academy's certificates of participation debt activity (such as interest earnings and debt payments) is detailed in various U.S. Bank accounts. U.S. Bank provides monthly statements to the Academy detailing the activity. Effective July 1, 2006, the Academy reports all debt activity in the General Fund. This will require the Academy to budget for the debt activity. Currently, the Academy does not record any of the debt activity in its accounting records. We recommend that the Academy record debt activity in its accounting records on a monthly basis. This will enable the Academy to track all debt activity and to budget accurately.

Board of Directors September 10, 2008 Page 2

The following comments are being reported for the first time:

Credit Card Procedures

The Assistant Administrator of the Academy receives monthly credit card statements for the Academy's credit card. Currently, receipts for minor amounts charged to the credit card are not required to be given to the Assistant Administrator before he pays the credit card balance. We recommend that the Assistant Administrator require all receipts to be turned in to him before he pays the credit card. The receipts should then be attached to the monthly credit card statement so that the Academy has support for these expenses. This procedure would enable the Academy and its auditors to determine the legitimacy of these expenses. As a further control, we recommend that the Administrator review and initial the credit card statement to indicate approval to pay.

Credit Card Policy

The Board should consider adopting a more detailed credit card policy. The policy should document procedures to be followed and responsibilities of personnel to monitor the use of credit cards.

This communication is intended solely for the information and use of management, the Board of Directors, bond trustee and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the courtesy and assistance extended to us by all the Academy's personnel during our audit. Should you have any questions with respect to the above comments, we would be pleased to discuss them with you at your convenience.

Very truly yours,

Smolinski & Christman, P.C.

Adam B. Caron, C.P.A.

Troy A. Slater, C.P.A.

To the Board of Directors of

Concord Academy-Boyne:

We have audited the financial statements of Concord Academy-Boyne (the Academy) for the year ended June 30, 2008, and have issued our report thereon dated September 10, 2008. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated June 24, 2008, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to the Assistant Administrator in our discussion about planning matters on June 16, 2008.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Academy are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2008. We noted no transactions entered into by the Academy during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We noted no sensitive estimates that are included in the financial statements.

Board of Directors September 10, 2008 Page 2

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 10, 2008.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Academy's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Academy's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Board of Directors and management of Concord Academy-Boyne and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Smolinski & Christman, P.C.
